1. Newly submitted claim 11, 15, and 16-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: As noted in applicant's reply, the double patenting rejection should be withdrawn as the new set of claims are "patentably distinct" over claims 1-10 of U.S. Patent 6,214,148. More specifically, applicant has presented a different embodiment from that which was originally presented for the method which embodiment is defined in the specification with reference to Figures 2 and 2c. More specifically, the embodiment newly presented requires the use of the profiled piece 18c which was used to press the veneer sheet to the stepped core 18a where the claims do not require a veneer which is disposed on at least two sides of the core and pressed on in two separate perpendicular directions simultaneously as required in the embodiment of Figure 2. As only claims to Figure 2 were originally presented (the original claims were directed to the species depicted in Figure 2), the presentation of claims which are solely directed to the non-elected species of Figure 2B are held as being directed to a non-elected invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11, 15-21 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 1-7 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6-19-06.

3. The amendment filed on 6-19-06 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because as expressed above, the newly presented claims are directed to a species which is distinct from the originally presented species of invention.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
